4. Director’s Report-Thea (Document attached). Library Updates: Staff is gearing up for expansive summer programs with partnerships with Hudson, Roe Jan and Philmont libraries. The new library website will be up and running very soon. Thea and Deb Byer are planning a mail chimp the first and third weeks of each month. Information for mail chimp is requested 4 weeks in advance of publication. Personnel: Deb has had an increase in hours for her work with Turning Outward and website upgrading. Her Turning Outward hours are covered by funds from a Small and Rural Libraries/ALA grant. Jenny commended the library on the April 2021 stats: April 2020 total circulation: 267 (library closed for borrowing physical materials). April 2021 total circulation: 3,967. Turning Outward/Libraries Transforming Communities: The committee has met several times to plan upcoming community discussion gatherings and letters have been sent to a variety of target groups. Primary question for each gathering: What kind of community do you want to live in? How can we as a community make that happen? Mask decisions: Thea is regarding libraries much like schools. Students under 11 are not yet able to be vaccinated and it will take a while for 12–15-year-old students to be fully vaccinated. Therefore, Thea suggested to the Board that masks should be worn inside the library as we move through the summer. A motion for the Claverack Library to follow the mask protocols of the county schools was made by Jenny, seconded by Mike and approved by all, with the stipulation that the protocol be reviewed each month. Motion carried.

Mike will check with the county DOT supervisor Mike Duval for any additional design specifics needed for the drain work. **Sound Panels:** The committee continues to look for someone to install them.
   Pergola: Stephen has given Linda McNutt’s plans to Peter Fonda, who may be able to help us find someone to construct the pergola. **Balancing the HVAC system:** Vicki emphasized the need to have this completed to finish up the paperwork for the 2020 DLD grant. Stephen also reported that Rebekkah Smith Aldrich announced sources of money available to libraries that we may want to investigate for the generator.
   ii) **MHLS Facilities Plan** (Document attached) After a brief discussion on prioritizing the three necessary improvement projects, A motion to approve the MHLS Facilities Plan with minor edits was made by Mike, seconded by Vicki, and approved by all. Vicki will begin the exploration on behalf of the board.

H. Technology Committee-Mario (Document attached). Ditto Access 1 (AP-1). The unit in the main library space providing WiFi access failed to function. A replacement has also failed. The AP-1 unit has been removed from service. The four remaining operating AP units in the building should provide adequate WiFi coverage. Thank you to David Baylen, who spent considerable time working with Sal from S&F. Thea is still pursuing the purchase of a color printer.
